Description

LOCTITE® 589 is a green, low-viscosity, dimethacrylate ester, acrylic, threadlocking adhesive. The product is used to lock and seal fine-threaded nuts, bolts and studs in a wide variety of applications. LOCTITE 589 is also used to seal porosity in welds, castings and powdered metal parts. Demonstrates high-strength capability.

Avantages

Ideal for fine-threaded nuts, bolts and studs
Suits a wide variety of applications
Also seals porosity in welds, castings and powdered metal parts
Positive fluorescence under UV light

Caractéristiques

Acrylic green threadlocker with high strength. Used on fine-threaded nuts, bolts and studs.
